

CoreNet™

Deploy far-reaching technologies.

INTELLACORE
BUSINESS BEYOND BORDERS

The CoreNet Group™ provides best-in-class Internet communications services as simple and effective business solutions. Extend your ability to interact easily with companies anywhere in the world and “Play Big” by delivering the service levels of much larger companies by using simple and effective Internet technology.

How Will CoreNet™ Help My Business?

- Perform an ICT assessment of your organization
- Deploy simple, cost-effective Internet and Communications services
- Extend your ability to engage, communicate, and work with companies who are further than a convenient car ride from your location regionally, nationally, or internationally.
- Learn how to execute Telecom Expense Management practices through our online utilities

Deploy Far-Reaching Internet Services

CoreNet understands how the proper use of IntellaCore’s Internet tools and services make it easy to build business relationships between companies (prospects, customers, suppliers, strategic partners, etc.).

“In recent years, the world has witnessed the power of information and communications technologies (ICT) in revolutionizing the business and economic landscape.”
World Economic Forum ICT Report 2007.

CoreNet ICT Service Areas:
